Leather
adhesion of finishes for 303, 306
air permeability of 512
aluminum-tanned 126
chemical treatment of 82
chrome 347
chrome, dyeing and retanning of 197
chrome, for upholstery 254
chrome, measuring mechanical properties of 37, 113, 115
chrome, properties of 480
chrome tanning of 348
chrome tanning of with complexed chrome 346
chrome-aluminum tannage of 126, 128
conservation and restoration of 267
cracking of 476
determination of adhesion of finishes 303
dressing for 349
drycleanable, colorfast dyes for 486
easy-care 266, 347
effect of abrasion on water resistance of 148
effect of CaO on processing of 80
effect of fatliquors on 479
effect of fatliquors on properties of fibers from 479
effect of liming on quality of 480
fatigue phenomena in 222
fatliquoring of 45, 46
fatliquors for 481
fats in 37, 114, 479
finishes for 303, 422, 567
for sports 347
from unpreserved raw skins 114
fungicide for 253
graft polymerization of 195, 422
heat setting of 266
hydrothermal resistance of 512

impregnation of 44
liquid treatment of .....
lubricating process and composition of 43
mineral tanned 39
manufacture of aniline glacé kid 347
manufacture of aniline goat upper 347
measurement of strength of 533
method of forming 350
movement of fat in during drying 479
nappa 478
oilproofing of 117
permeability of to water vapor 476
polishing of 514
preparation of chrome-tanned 351
preparation of multi-colored 127
printed, from goat skin 481
processing of 39
properties of as affected by easy-care finishes 268
radiometrical applications in 512
rapid tannage of sole 80
reptile, fish and mammal 37
sammying of 355
smoothing of 352
softy 478
stitch tear of 265
stretching and drying of 354
tanning of 355, 518
tie-and-dye from E. I. skins 112
treatment of with resins 518
uniformity of 301
upholstery 254
use of enzymes for 477
use of waste products from 447, 480
U. S. industry and research 360
vegetable tanned 209, 346
washable, colorfast dyes for 486
water absorption of 480
water-proofing of 36, 117, 125, 349
water-repellant treatment for 482
water resistance of 148
wet heat resistance of 481
with marbled design effect 197

Leather board manufacture 114
Leather industry 112, 566
Leather substitutes 39, 40, 41, 42, 43, 45, 112, 113, 514, 515
acid treatment of 124
containing a hydrophilic polymer 117
for shoe lining 352
from polyvinyl chloride foams 39
method of manufacturing 117, 118
moisture-responsive, microporous 119
multi-layered 125
poromeric 122
preparation of 348, 349, 350, 351
process for the production of 123
semisynthetic upper 36
vapor-permeable 119
with patent leather-type finish 122
with three layers 122
Leather waste
use of 517
use of in sound equipment 497
LHUEDE, E. P., Biography 548
Lignosulfonates, effect of on tanning 79
Liming
proteolytic and hair-destroying action of 34
rapid, low-sewage 306
reuse of baths for 511
without effluent 520
without sodium sulfide 478
